

PRESS RELEASE AUGUST 13th | 2018

Golden Omega signs agreement for Supply of renewable energy

Golden Omega S.A. is pleased to announce the signature of a long-term renewable energy supply contract with Chilean power generator Colbún S.A. This agreement was entered into on July 1, 2018, and will run until December 31, 2022. The contract allows Golden Omega to ensure a zero-emission power supply for the next four years of operations.

"Golden Omega maintains a firm commitment to the environment in which it is important to have a renewable energy supply. From Arica, we export our Omega 3 concentrates to the world market of nutraceutical and pharmaceutical ingredients where our customers value the sustainability of our operations", commented Jorge Brahm, Managing Director of Golden Omega.

The agreement establishes that Colbún will certify, through an independent auditing company, that the energy used by Golden Omega will come from hydraulic, solar and wind power sources.

ABOUT GOLDEN OMEGA AND COLBÚN

Golden Omega is a Chilean Company focused on producing high quality Omega 3 concentrates up to 75% of EPA and DHA obtained from fish oil. Golden Omega's state-of-the-art production facilities are located in Northern Chile, close to the raw material source. This guarantees an assured supply of the best fish oil available worldwide, as well as freshness and quality.

Colbún is a company dedicated to the generation and commercialization of energy with an installed capacity of 3,893 MW. Colbún has a presence in Chile and Peru and a diversified portfolio of renewable energy projects.
